

# A4504RR <sup>2400 CHU</sup> 74-76 Days

*New Roundup Ready Performance*  
*that Starts Strong and Finishes Fast*

## Hybrid Features

- § Excellent grain quality with top end yield potential
- § Excellent choice for producers using Roundup herbicide program
- § Good late season plant health
- § Above average test weight
- § Good response to high fertility
- § Recommended for grain and high moisture corn
- § Crop safety enhanced with Roundup herbicide program

## Positioning/Management

A4504RR has excellent top end yield potential with above average test weight and grain quality. The dent portion of this genetic package is responsible for rapid drydown while the flint side maintains its impressive test weight. A4504RR exhibits season long plant health on all soil types. It is an excellent early Roundup Ready corn companion to A4950RR given early silking and rapid drydown. Excellent choice for no-till growers also.

## Position Against

- § DKC29-97
- § 39H83

## Detailed Hybrid Information

**Mid Flowering:** 1019 GDU     **Black Layer:** 1915 GDU  
**Plant Height:** Medium     **Ear Angle Harvest:** Up  
**Ear Height:** Medium-Low     **Ear Type:** Fixed  
**Cob Colour:** White     **Kernel Rows:** 14  
**Disease Tolerance:** Very good plant health  
**Corn Borer Tolerance:** Good natural tolerance to European corn borer  
**Harvest Population (000s per acre):** 28-31
