Late Season Choice for Silage Performance

Hybrid Features

- Tall hybrid with medium-high ear placement
- First choice for silage but works well as grain hybrid
- Very good emergence and spring vigour
- Roundup Ready[®] crop safety yield advantage

Positioning/Management

Excellent performance on high yield environments with very good plant health. Excellent late season intactness to take advantage of fall drydown period. Plant early to maximize full growing season. Can be sprayed with Roundup herbicides for control of broadleaf weeds and grasses. Excellent silage choice. Check with PRIDE Seeds for a list of key competitors to position against.
