

K083

2250 CHU
70-72 Days
(2100-2250 Silage CHU)

Adaptable Hybrid with Outstanding Yields

Hybrid Features

- § Early hybrid with outstanding yield potential for grain or silage
- § Quick out of the ground and fast drydown
- § Very high silage digestibility and energy yield per acre
- § Excellent stalk strength
- § Excellent quality grain

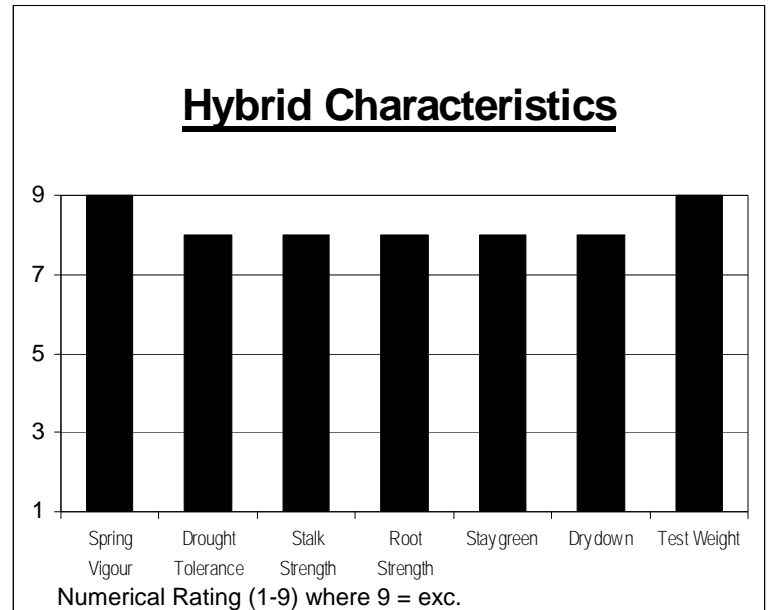

Positioning/Management

A fixed ear hybrid that works well across all soil types and growing conditions. Adapts to 2250-2350 CHU maturity. Works well as a grain or early maturity silage variety. Good companion for K080 on early side of line-up. Responds well under heat and drought stress.

Position Against

§ 39R62

Detailed Hybrid Information

Mid Flowering: 990 GDU **Black Layer:** 1870 GDU
Plant Height: Medium **Leaf:** Upright-Wide
Ear Height: Medium-Low **Ear Type:** Fixed
Cob Colour: White **Kernel Rows:** 16
Disease Tolerance: Very good resistance to common smut and fusarium
Corn Borer Tolerance: Good tolerance to European corn borer
Harvest Population (000s per acre): 29-31
